WAM Systems And AID Form Alliance To Bring Supply Chain Solutions To South Korea

Companies Collaborate to Bring Targeted Chemical and Polymer Supply Chain Solutions to the South Korean Marketplace

Plymouth Meeting, Pennsylvania — WAM Systems, a leading provider of advanced supply chain planning (SCP) solutions designed exclusively for the chemical industry, and AID Corporation, a leading supplier of advanced control and plant optimization solutions to the South Korean process industries, today announced a partnership to bring WAM Systems' Picaso™ advanced SCP solution to South Korean chemical and polymer manufacturers.

This strategic partnership combines WAM Systems' best-of-breed supply chain suite and AID's deep domain expertise to offer an unparalleled supply chain solution to the large and growing market for advanced manufacturing and supply chain software solutions in South Korea.

"We look forward to building upon AID's long standing reputation and strong customer relationships with leading South Korean manufacturers to launch an aggressive campaign aimed at propelling our joint solutions into a leadership position in the Republic of Korea," said Jack Weiss, CEO of WAM Systems. "It is a pleasure to partner with well respected companies like AID who have served the South Korean chemical industry so well for so long."

"The chemical market is growing rapidly in South Korea; therefore, the partnership between AID and WAM Systems will be geared towards addressing the many needs of this dynamic market," said Hyung-Hoe Huh, president of AID Corporation.

About AID Corporation

AID Corp. is a leading integrated solution supplier of software and implementation services to the process industries in South Korea, providing customers with cost-effective solutions combining plant information systems, plant automation systems, supply chain management systems, and plant engineering software. AID's mission is to help customers maximize productivity and profitability by improving the operational and business performance through the deployment of integrated solutions. AID Corp.'s customers include refinery, chemical, power, pulp-paper, food and steel manufacturers in South Korea. Additional information for AID Corp. is available at www.aidcorp.com (currently Korean only).

About WAM Systems

WAM Systems, Inc. develops and markets advanced supply chain planning solutions designed exclusively for the chemical industry. Picaso™, its premier advanced supply chain planning solution used by leading chemical manufacturers, provides a broad set of Internet-enabled decision support and optimization tools that address collaborative sales forecasting, production optimization, inventory management, distribution network optimization, production planning and scheduling, and procurement planning. The company also provides a full range of consulting, support, training, and implementation services. Its customers include Basell Polyolefins, BP Solvay, Chevron Phillips, Cyro, DuPont, Equistar, Lyondell, Pecom Energia, Solvay, and Wellman. Founded in 1987, WAM Systems is a privately held company headquartered in the suburbs of Philadelphia, Pennsylvania. For more information on WAM Systems, Inc., visit www.wamsystems.com.
